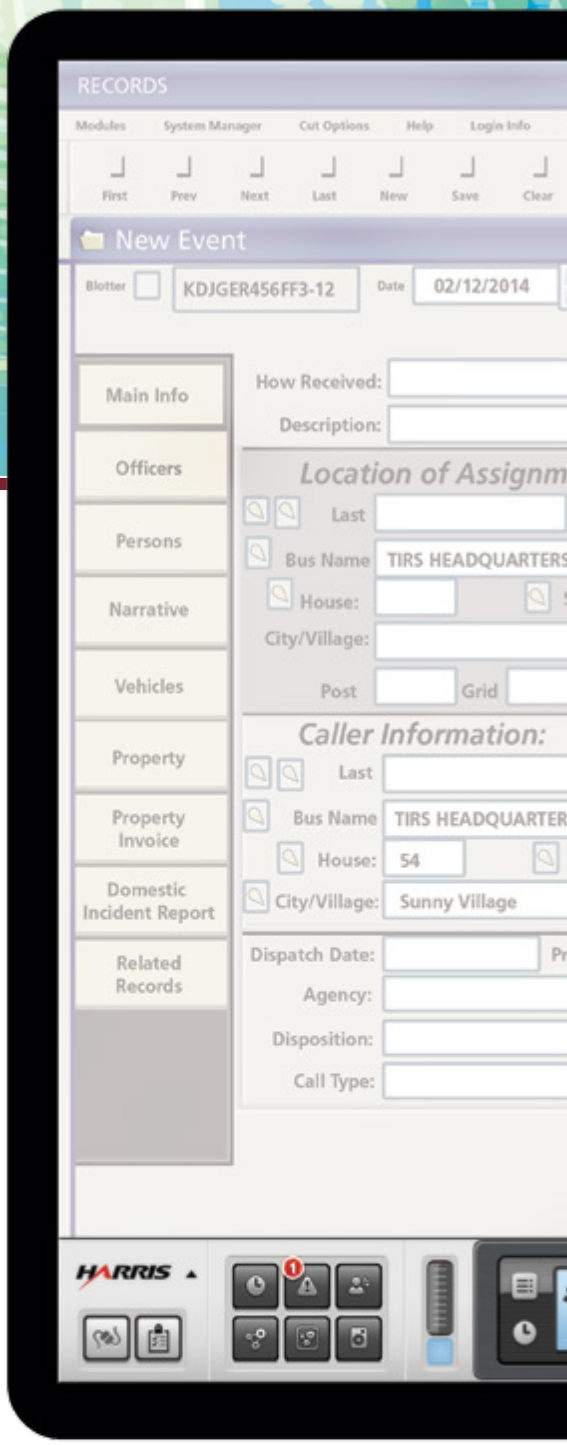
SYMPHONY™

CONDUCT DISPATCH YOUR WAY



A dispatch experience designed by you.

Symphony's patented Baton™ technology allows you to design your own console by placing your most utilized features directly where you want them.

Place the Baton on any screen, anywhere.

The new Baton makes complex tasks simple by integrating directly with your existing 9-1-1 and CAD software allowing dispatchers to handle calls using a single monitor, mouse and keyboard.

Focus on what is important to you.

Customize your screen with multi-tabbed modules; enabling you to move audio to different speakers, replay calls and handle emergency calls. All personalized just for you.

POWERFUL. RELIABLE. CUSTOMIZABLE.

INNOVATIVE HARDWARE PLATFORM PROVIDES:

- Silent operation with no moving components
- Flexible and simple mechanical configuration (mount in a rack, mount under a desk or use as a desktop unit)
- Vibration resistant for mobile installations
- Remote configuration capability
- End-to-end voice encryption for secure communications
- Superior lifecycle management
- Industry-standard, rugged connectors
- Ability to run the existing C3 Maestro^{IP}™ application or the new Symphony application

STATE-OF-THE-ART USER INTERFACE INCLUDES:

- 1,024 modules, 3 module sizes
- 14 different module colors
- 32 predefined simulselects
- 16 user setups
- Up to 8 speakers
- Access to Aux I/O
- AES encryption
- 24-hour instant recall recorder
- Single button for last call replay
- Trunking or Conventional capability
- 16 active patches on a console
- Full paging support

GENERAL SPECIFICATIONS:

Processor Type:

Intel® Core™ i7 Ivy Bridge processor

Operating System:

Microsoft Windows®

Typical Dimensions (H x W x D):

Computer:

- 16.5 x 11.7 x 1.75 in. (42 x 30 x 4.5 cm)

Display:

- Multi-touchscreen capable

Power:

85-264 VAC, 47-63 Hz input

Operating Temperature:

+32 to +104°F (0 to +40°C)

Storage Temperature:

-22 to +185°F (-30 to +85°C)

MTBF

10 years

RoHS Compliant

UL Certified/FCC Certified
